

STANDARD OPERATING PROCEDURE — ACCOUNTS PAYABLE CONTROLS (v3.0)

Owner: Finance Shared Services | Effective: 1 July 2026 | Supersedes v2.1 (2024)

Changes driven by: H1-2026 audit patterns 1-8; historic review H1-H5; RD-01..RD-13

Key controls (new in v3)

1. DUPLICATE PREVENTION: system block on same vendor+amount+invoice-reference within 30 days; weekly fuzzy-match report (name variants, e.g. 'GULF COLDCHAIN' vs master record) reviewed by AP supervisor.
2. NO-PO-NO-PAY: effective 1-Aug for all vendors except utilities and government fees.
3. 3-WAY MATCH: invoice paid only against PO + GRN; exceptions >SAR 10K need CFO delegate approval.
4. DISCOUNT DIARY: early-payment terms tracked in ERP; capture rate reported monthly (target >95%).
5. CREDIT NOTES: applied against next payment run automatically; dormant-credit report monthly.
6. HEDGE CHECK: EUR/CHF payment runs blocked without treasury hedge-application confirmation.
7. VENDOR MASTER: onboarding requires Tax ID + IBAN uniqueness check; duplicate-entity screen quarterly.
8. PAYMENT INSTRUMENTS: cheque issuance restricted to exceptions approved by Financial Controller.

Monitoring

StrategyOS cash-recovery agent runs continuous exception detection across AP, payments, GRN and vendor master; findings route to the Remediation Decision Log with owner and due date.
