Mission

Provide the clinical layer beneath the Mizan platform — primary care, diagnostics, day-care surgery — feeding prescription and pharmacy volume to the rest of the group.

Strategic intent

Be the clinical layer that feeds prescription volume through Mizan Pharmacy Retail and consultation volume through Mizan Digital Health. Cardiology + oncology day-care + diagnostics are the growth pillars.

Current state, mid-2026

Mizan Healthcare Services runs 24 polyclinics + 14 diagnostic centres + 6 day-care surgery units. 184k outpatient visits/month, 82% insurance-mix, 14.6% EBITDA margin in 2025 lifting to 19.5% by 2028. Co-located strategy with Mizan Pharmacy Retail is the operational differentiator.

The KSA healthcare services market

The KSA healthcare services market is sized at **SAR 240B** in 2026 (forecast), growing at **10.1%** for the year and a projected **10.0–9.8%** CAGR through 2028. Healthcare Services's 2026 revenue of SAR 700M implies a market share of approximately **0.3%**.

	2024A	2025A	2026F	2027F	2028F
Market size (SAR B)	198	218	240	264	290
Market growth %	+8.5%	+10.1%	+10.1%	+10.0%	+9.8%
Healthcare Services revenue (SAR M)	540	615	700	800	920
Healthcare Services share	0.27%	0.28%	0.29%	0.30%	0.32%

Demand drivers

Health-sector privatisation (HSTP); mandatory health insurance expansion; ageing demographic; medical tourism via Riyadh and Jeddah.

Regulatory environment

Ministry of Health; Saudi Health Council; CCHI / Saudi Insurance Authority; Saudi Commission for Health Specialties.

Vision 2030 programme linkages

Health Sector Transformation Program · Healthcare Privatization VRP.

How we compete in Healthcare Services

Our 2028 ambition is not to be the largest by revenue but to be the most integrated by capability and the most disciplined by margin. The competitive set is anchored by a handful of named operators below.

Competitor	2025 Rev (SAR M)	2025 EBITDA %	Strategic posture
Saudi German Hospital	2,780	17.0%	Pan-regional brand.
Mizan Healthcare Services (us)	615	14.6%	Be the clinical layer that feeds prescription volume through Mizan Pharmacy Retail and consultation volume through Mizan Digital Health. Cardiology + oncology day-care + diagnostics are the growth pillars.

Biggest competitive threat to manage

Dr Sulaiman Al-Habib at SAR 11.9B is the sector reference — listed, profitable, expanding. Mouwasat Medical at SAR 3.2B dominates Eastern Province. Mizan is sub-scale relative to both but differentiated by the integration story.

Biggest competitive opportunity to capture

Vision 2030 health-sector privatisation tenders + the Bupa Arabia master insurance contract (re-signed Q1-2026) underwrite 2027-2028 EBITDA recovery. Specialty mix expansion in cardiology and oncology day-care is the same playbook as the dominant peers.

Revenue, EBITDA, cash and operating KPIs — 2026-2028.

Financial trajectory

	2024A	2025A	2026F	2027F	2028F
Revenue (SAR M)	540	615	700	800	920
YoY growth	—	+13.9%	+13.8%	+14.3%	+15.0%
EBITDA margin %	13.2%	14.6%	15.8%	17.5%	19.5%
EBITDA (SAR M)	71	89	110	140	179

2026 operating KPIs (Healthcare Services-specific)

Metric	Value 2026
Polyclinics	24
Diagnostic centres (imaging + lab)	14
Day-care surgery units	6
Outpatient visits (monthly)	184000
Insured-patient mix	82%
Saudisation (clinical workforce)	44%

The four to six things we will do that matter.

The plan is operationalised through the discrete initiatives below. Each has a named owner (the BU CEO) and a quarterly milestone reported through the StrategyOS Monday Brief.

1. Cardiology day-care expansion — 2 new units Riyadh + Jeddah
2. Oncology infusion centres — 3 new units partnering with King Faisal Specialist Hospital
3. Imaging fleet expansion — 5 MRI + 8 CT additions
4. Bupa Arabia master insurance contract renewed Q1-2026
5. Mizan Digital Health bundle — bookable telehealth-to-clinic referral live

Vision 2030 programme alignment

Health Sector Transformation · Healthcare Privatisation VRP · Saudi Health Insurance

06 · BU-LEVEL RISKS

What could break the plan.

R-08 — Reimbursement compression **Impact: M · Likelihood: M**

Bupa Arabia + Tawuniya annual rate negotiations. Insurers under MEDPRO + new SIA cost-discipline; reimbursement rate cuts of 2-5% plausible at next renewal.

Mitigation: Specialty-mix shift; Mizan Digital Health bundling reduces sensitivity; insurer diversification.

07 · CAPITAL ASK 2026-2028

Investment to deliver the plan.

Cumulative capital ask 2026-2028: SAR 220M. Funded from a combination of BU-generated cashflow, group capital recycling, and the SAR 2.65B group envelope. Note: *Cardiology day-care expansion, oncology infusion centres, imaging fleet, EHR upgrade.*

Governance

BU CEO is the named owner of every initiative and every number in this plan. Monthly performance is reviewed at the Executive Committee. Quarterly progress is reported to the Board. The Monday Brief surfaces variance vs plan in real time.

BU sponsor: Dr. Faisal Al-Mutairi, CEO Mizan Healthcare Services.

Group oversight: Khalid Al-Rashed, Group CEO.

Plan effective from: 12 January 2026 (Board-approved).
