Privatisation + insurance expansion = specialty-led growth

The KSA healthcare services market is sized at SAR 240B in 2026 and growing 10.1% YoY. The Health Sector Transformation Program continues expanding private-sector participation; mandatory insurance penetration is rising; demographic ageing is structural.

The competitive set is dominated by Dr Sulaiman Al-Habib at SAR 11.9B and 31% EBITDA — listed national champion. Mouwasat at SAR 3.2B + 29.5% margin is the Eastern Province specialist. Saudi German Hospital pan-regional. Mizan Healthcare Services at SAR 615M is sub-scale but cross-BU integrated.

The strategic shift is from generalist multi-specialty to specialty-tertiary referral. Cardiology, oncology, women's health, and diagnostics are the high-margin pillars. Mizan's differentiation is co-location with Pharmacy Retail and bundling with Digital Health.

5	Aster DM Healthcare KSA	680	15.5%	UAE-listed; KSA expansion.

Competitive dynamics — our reading

Dr Sulaiman Al-Habib is the sector reference — listed, profitable, expanding NEOM and Eastern Province. Different scale to Mizan.

Mouwasat owns Eastern Province in private healthcare; Mizan's eastern presence limited.

Saudi German + IMC are pan-regional / Jeddah-based references; closer to Mizan in shape but without the Mizan platform integration.

Mizan Healthcare Services at SAR 615M is mid-scale; differentiation is cross-BU integration (clinics co-located with Mizan Pharmacy Retail; bookable via Mizan Digital Health).

Who regulates what, and what's changing

Ministry of Health; Saudi Health Council; CCHI / Saudi Insurance Authority; Saudi Commission for Health Specialties.

CCHI / Saudi Insurance Authority sets mandatory insurance scope.

Saudi Commission for Health Specialties accreditation; consultant licensure binding.

What could break the outlook

Consultant supply

Cardiology + oncology consultant gap nationally. Recruitment pipeline 9-12 months.

Reimbursement compression

Annual rate negotiations with Bupa + Tawuniya. Potential 2-5% rate cuts.

Privatisation pace

MOH + PIF coordination dependent. Sub-sector tenders for cardiac, oncology expected H2-2026.

07 · MIZAN IMPLICATIONS

What this means for our portfolio

Cardiology day-care expansion + oncology infusion partnerships are the right strategic moves.

Insurance-mix at 82% is sector-leading; Bupa Arabia master contract renewed Q1-2026.

Cross-BU integration (Pharmacy Retail co-location + Digital Health booking) is the moat vs scale peers.

Specialty-mix shift is the EBITDA recovery lever.
